

ADITYA SAGAR SHARMA

+91 9709303105 | adityasagar9991@gmail.com | linkedin.com/in/adityass2004 | github.com/adityass2004
Muzaffarpur, India | **LeetCode Rating: 1633** | 120+ Solved (Graphs, DP, Trees, Greedy)

TECHNICAL SKILLS

Languages: C++, JavaScript (ES6+), TypeScript, Python, **SQL (PostgreSQL, MySQL)**, HTML/CSS.
Backend: Node.js, Express.js, **REST APIs**, **Prisma ORM**, **Redis Caching**, Microservices.
Cloud & DevOps: **AWS (EC2, S3)**, **Docker**, **Git (Version Control)**, CI/CD (GitHub Actions), MongoDB.
Core Concepts: **Data Structures & Algorithms**, **System Design**, **DBMS**, **ACID Compliance**, **JWT/Auth**.

WORK EXPERIENCE

Cognifyz Technologies <i>Software Developer Intern (Backend)</i>	Remote Jul 2025 – Aug 2025
• Optimized backend performance via query tuning, indexing, and connection pooling, reducing PostgreSQL API latency by 30% for high-traffic core endpoints. • Architected production-grade modules with Express-Validator, increasing data integrity by 20% and ensuring system reliability through robust error handling and input validation. • Collaborated in Agile development cycles, contributing to feature delivery, peer code reviews, and production deployments while maintaining a 95%+ code quality score. • Designed stateless backend services ensuring horizontal scalability and efficient request handling under concurrent workloads.	
Sandeshkhali Maa Saroda Society <i>Community Connect Volunteer</i>	West Bengal, India Jun 2025 – Jul 2025
• Standardized digital training workflows for 50+ participants, facilitating independent access to government portals and secure digital financial tools.	

TECHNICAL PROJECTS

Track-It: Enterprise Academic Management System <i>Next.js, Prisma, PostgreSQL</i>	2025
• Owned end-to-end backend development from system design and schema modeling to API deployment and performance optimization for a centralized student hub. • Engineered scalable architecture using modular services, reducing dashboard load times by 40% through optimized indexing and relational schema design for 500+ records. • Implemented secure RBAC/JWT authentication, ensuring production-level reliability and role-specific data access for attendance, marks, and college calendars.	
Scalable Social Media Engine <i>Node.js, Express, React, PostgreSQL, MongoDB</i>	2025
• Evaluated and implemented a dual-database architecture (PostgreSQL + MongoDB) to balance relational consistency and flexible schema requirements for complex user graphs. • Achieved sub-200ms response times for core interaction APIs under concurrent request loads, managing global state via Redux Toolkit for real-time consistency.	
Airline Reservation System <i>Next.js, MySQL, Tailwind CSS, REST APIs</i>	2024
• Engineered an ACID-compliant transactional booking engine, ensuring consistent state management for seat inventory and real-time inventory updates using MySQL.	

EDUCATION

SRM Institute of Science and Technology (SRM KTR) <i>B.Tech in Computer Science and Engineering</i>	Chennai, TN Aug 2023 – May 2027
Current CGPA: 8.97 / 10.0 Core Coursework: DSA, DBMS, Operating Systems, System Design.	

ACHIEVEMENTS & CERTIFICATIONS

- **Competitive Programming:** **LeetCode Rating 1633** (Top 20% globally); solved 120+ problems across **Graphs, DP, Trees, and Greedy Algorithms**.
- **Certifications:** **Oracle Certified Cloud Foundations**; Cisco Networking Basics; Udacity Gen AI Academy.
