ADITYA SAGAR SHARMA

Software Development Engineer | Backend | Distributed Systems

+91 9709303105 | adityasagar9991@gmail.com
linkedin.com/in/adityasagar9991 | github.com/adityass2004
Muzaffarpur, India | **LeetCode Rating: 1930+** | 480+ Solved

TECHNICAL SKILLS

Languages: C++, JavaScript (ES6+), TypeScript, Python, **SQL (PostgreSQL, MySQL)**, HTML/CSS.

Backend: Node.js, Express.js, **REST APIs**, **Prisma ORM**, **Redis**, Microservices, API Design, Caching, Rate Limiting.

Cloud & DevOps: AWS (EC2, S3), **Docker**, Git, Cloud Run, API Gateway, Deployment Pipelines.

Software Engineering: SDLC, Agile, Testing, Debugging, Code Reviews.

Core Concepts: DSA, **OOP**, **DBMS**, **Operating Systems**, **System Design**, ACID, **Scalability**, **Distributed Systems**.

Messaging & Architecture: Kafka (Basics), Event-Driven Architecture, Pub/Sub Systems.

WORK EXPERIENCE

Cognifyz Technologies Remote
Web Development Intern Jul 2025 – Aug 2025

- Contributed to **web development** assignments, applying software development workflows and implementation practices.
- Completed assigned development tasks with emphasis on **problem solving, code quality, and attention to detail**.
- Collaborated with team members, communicated progress effectively, and adapted to new technical requirements.

Sandeshkhali Maa Saroda Society West Bengal, India
Community Connect Volunteer Jun 2025 – Jul 2025

- **Standardized** digital training workflows for 50+ participants, facilitating independent access to secure digital financial tools and government portals.

TECHNICAL PROJECTS

Track-It: Academic Management System | *Next.js, Prisma,* ***PostgreSQL****, Redis* 2025
github.com/adityass2004/Track-It

- **Built Track-It to centralize academic workflows** for students, replacing fragmented management of academic information with a unified student hub.
- **Designed and implemented the backend** using modular service-layer architecture, RESTful APIs, PostgreSQL data modeling, and Redis caching with pagination, filtering, and structured error handling.
- **Improved application performance by 40%** through cache-first access for frequently requested data, reducing repeated database queries and backend response latency.

Load Balancer | *Next.js, TypeScript, Node.js, Prisma,* ***PostgreSQL****, Google Cloud Run* 2026
github.com/adityass2004/Load-Balancer

- **Built a Layer-7 load balancer to solve request distribution and backend availability** challenges when routing traffic across multiple application servers.
- **Implemented weighted round-robin routing, health checks, retries, and failover** with an in-memory server cache synchronized with PostgreSQL, minimizing database reads during request processing.
- **Enabled resilient and dynamically configurable request routing** through automatic unhealthy-server removal, runtime server management, and deployment on Google Cloud Run for scalable backend orchestration.

EDUCATION

SRM Institute of Science and Technology (SRM KTR) Chennai, TN
B.Tech in Computer Science and Engineering Aug 2023 – May 2027
Current CGPA: **9.00 / 10.0** | **Core Coursework:** DSA, DBMS, OOP, Operating Systems, System Design.

ACHIEVEMENTS & CERTIFICATIONS

- **Competitive Programming: LeetCode Rating 1930+** (Top 5% globally); solved 480+ problems (Graphs, DP, Trees).
- **Engineering:** Applied scalable backend architecture, caching, load balancing, fault tolerance, and distributed-system patterns across projects.
- **Certifications: AWS** Certified Cloud Practitioner; **Cisco** Networking Basics; **Google Cloud** Gen AI Academy 2026.
